

Johanna Gutenberg

eHealth Researcher

gutenbergjo@gmail.com

Summary

I was born and grew up in Germany, and have been permanently living in Denmark since August 2014. I have both academic and operational experience within healthcare management, global public health, health economics and outcomes research.

In my Bachelor and Master's degree, I specialized in Health Technology Assessment (HTA), eHealth, and ICT. I chose this path as I am very interested in working with innovative approaches, analyzing data and system requirements, determining system/functional specifications and providing powerful insights that outline solutions and drive change.

Experience

eHealth Researcher

October 2017 - Present

At the Eriksholm Research Centre (part of OTICON A/S), I am a member of a strong and dedicated team that aims for better hearing care solutions in the future. With our research, we strongly focus on a bigger perspective; eHealth helps the flow of information either within or around healthcare. eHealth applications will bring many advantages in the assessment and treatment of people with hearing impairment.

Junior Researcher-Danish Cancer Society

March 2017 - June 2017

4 months research project: Case study on how to construct an assistive toolkit for researcher and research groups on the development, implementation, and evaluation of digital solutions to support clinical processes and interventions.

Teaching Assistant-University of Copenhagen

February 2017 - June 2017

Teaching Assistant on master's degree level.

Based on the Stanford University's Biodesign innovation process, I introduced master's students to various aspects of health and assisted living technology innovation. That includes clinical needs analysis, market analysis, ideation, prototyping, regulatory and business plan development.

Student Consultant-180 Degrees Consulting

February 2016 - May 2016

Twelve-week project to help a non-profit organization located in Copenhagen to implement an internship programme with interns able to work for a partner non-profit organization in India.

To deliver a best possible result for our client, I received practical training from PA Consulting and Implement Consulting Group.

Education Manager for Nurse School-Kaiserswerther Seminare
